2016

74.10%

PROJECTS

Picswala Website

- This project is a web application built using the basic MERN (MongoDB, Express, React, Node.js) as stack.
- It serves as an e-commerce platform for selling photography and videography related products, and also allows users to book top photographers.
- Its contains features as :
 - search
 - add products
 - user registration
 - booking system
 - user dashboard and admin dashboard.

To Do List

- ToDoList is developed using React.js, HTML, CSS AND JavaScript.
- We have added the functionality like :
 - Add the task
 - Delete the task
 - Edit the task.
